[RAWP Final Combined Comments.pdf](#)

Good Evening Everyone,

Joe has asked me to forward the two attachments to you which were recently received by EPA.

The first is the *Response to Comments to the December 2020 draft Operable Unit 2 Remedial Action Work Plan* (RAWP) (Response Letter) for the Ringwood Mines/Landfill Superfund site from the Ford Motor Company's Project Coordinator. The Response Letter replies to comments on the draft Operable Unit 2 Remedial Action Work Plan which were incorporated into EPA's February 26, 2021 comment letter (attached).

The final combined comments include EPA and DEP's comments as well as the Fact Sheet provided by the Technical Assistance Services to Communities (TASC) at the virtual meeting held on February 25, 2021. It also addresses the comments provided by the Ringwood Environmental Commission and comments from a private Ringwood resident.

The Response Letter is also available on EPA's public website at the following link: <https://semspub.epa.gov/work/02/616757.pdf>. Please note that EPA and the NJDEP are currently reviewing the Response Letter to determine whether the Agencies' comments have been adequately addressed, and intend to respond back to the Ford Motor Company by April 15, 2021. Please feel free to contact Joe Gowers at (212) 637-4413 or gowers.joe@epa.gov if you have any concerns regarding this matter.

Thank you for your continued interest in the Ringwood Mines Superfund site and have a nice weekend!

Pat
